

# Flapping Bird Cut and Color

Flapping Bird Cut and Color (makes 2)

1. Cut out all pieces including wing slit on bird body. (Younger children will need help cutting the slit.)
2. Fold wings on dotted line.
3. Color as desired.
4. Insert wings through bird body to fold line.
5. Poke small hole somewhere above the wings with a needle and string with sewing thread. Location of hole will determine tilt of bird's body.
